

# APOSTOLIC RELEASE CONFERENCE

INCREASING KINGDOM INFLUENCE

2010

22nd to 24th September  
Perth, Western Australia, Australia

John Eckhardt is a respected international speaker who still pastors a large church. His teaching on the Apostolic, and the other ministry gifts, is practical, biblical, and inspiring. The church of Jesus Christ needs a new wave of leadership that comes out of grace, calling, and biblical release. We will have the privilege and opportunity to host in our city a ministry that has the ability to connect Kingdom realities to earthly needs. There will be an impartation and release factor that will be a significant blessing to those who attend and are ready to receive.

**Mike Keating - Vice-President AOG Western Australia**

I wish to highly commend the ministry of Apostle John Eckhardt. As a movement, we have traditionally been overly cautious with the notion of Apostles and their role within the kingdom of God.

I am convinced that this conference will be a rallying point for all those interested in this aspect of God unwrapping the Kingdom message, along with the balanced understanding of the five-fold ministry and particularly the grace on the apostolic gift, and how it can serve the Body of Christ.

**President AOG Western Australia - John Warwick**

ApostleNet International is a servant ministry empowering leaders to transition to an apostolic dimension of influence. It is now enjoying God's blessing as its spheres of impact increase through the nations.

This globally focused initiative is being led by Apostle Chris Peterson who has extensive ministry experience spanning some forty years.

In the late 1990s he was challenged with a need to see churches transition from a pastoral model and mindset to a Kingdom conquest orientation with apostolic authority. As a result of this revelation ApostleNet International was birthed and provides apostolic support and leadership training to churches & ministries throughout the Asia Pacific region and other parts of the globe. It works with strategic leaders already established in the nations where it is involved, embracing numerous denominations, fellowships and organizations.

This is being achieved by commissioning teams with a strategic plan to equip and empower leaders through special training and consultations.

The vision of ApostleNet International is to see the church rise in Kingdom authority to fulfill the Great Commission.
